

Bus Éireann Trade Union Group - Notice

BUS ÉIREANN - STRIKE DAY 21

Dear Member,

As you may be aware from media reports the Labour Court concluded their deliberations late last night and informed the parties that they would issue a Recommendation by lunchtime today.

We have now received that Recommendation i.e. LCR 21438. We are in the process of disseminating LCR 21438 to all members and the Trade Unions and their members require sufficient time which is necessary to reflect upon same. In conjunction with the requirement of the Labour Court, we are now to lift pickets with immediate effect and respectfully request that all members who are rostered to be at work at this time, return to their place of employment.

Further notification will be issued by each Trade Union with regard to Information Meetings, Ballots, etc. on the said Labour Court Recommendation LCR 21438.

We would once again like to commend all workers for their exemplary behaviour during this most difficult of disputes in the face of unilateral action by Bus Éireann Management.

Yours fraternally
